

Physical Science Section Includes Large Staff of Five Instructors

The physical science department of Hartnell college includes a staff of five instructors, including Dr. Jerome Holmes, Mr. Vincent Anselmo, Mr. Raymond B. Puck, Mr. William C. Criswell and Mr. Craig Townsend.

Dr. Holmes, chemistry instructor, received his bachelor of arts degree from the University of Hawaii, his doctorate from the University of California.

Mr. Anselmo instructs physics and engineering. He received his bachelor of science and master's degrees at University of California.

Mr. Puck is Stanford Graduate. After graduating from San Jose State where he earned his bachelor of arts degree, Mr. Puck, science teacher, continued his studies at Stanford university. Mr. Puck obtained his master's degree at the Palo Alto campus. He teaches astronomy, geology, physics and natural science.

Mr. Criswell received his bachelor of science degree from Pennsylvania State College and his masters degree at California State Polytechnic institute. He teaches chemistry and technical physics.

Mr. Townsend received his bachelor degree from the University of California and his masters degree from College of the Pacific in

Navy Commander Relates Service To U. S. After 30 Years' Duty

By SANDRA LIM

With 30 years of service in the United States navy in the past, Commander Joseph K. Hawkins embarks on a new life — that of a college student. After sailing the open seas for years, Hawkins has finally dropped anchor at a new port and is exploring this horizon with a crusading spirit.

Shedding his navy blue suit of formality, Hawkins has donned a pair of comfortable slacks and a shirt. As a business administration major at Hartnell, he is claiming San Jose State college as his next port of entry.

Hawkins does not have great longings to roam the seas again, but he can remember the time when he had the desire to go far, far away. At 18, the retired commander felt the U.S. navy was the best means of accelerating his departure. Four years of serving on board ships only convinced him that a career in the navy was in sight for him.

Visited Many Ports

Looking back to his navy life, Hawkins has no regrets. While serving with the forces, he visited many United States and foreign ports. His assignments placed him mainly in the Pacific.

Being in the navy was not smooth sailing all the way. Commander Hawkins has been stung by the bitter taste of war. He has seen action in World War II in the Battle of Savo Island of Guadalcanal fame. This major offense resulted in the loss of heavy cruisers and gave the Japanese a victory which temporarily deprived U.S. forces on Guadalcanal of air and naval forces. Hawkins tells of the many American lives which were lost in the sea battle.

During World War II, Commander Hawkins earned four battle stars for participation in the major naval battles in the Pacific theater of operation.

Had Many Duties

Subsequent to his detachment from the USS Salt Lake City and until his retirement from the naval service, Hawkins served in the fol-

(Continued on Page 2)

Forms Needed For Withdrawal

A Hartnell student who wishes to withdraw from college, should get a withdrawal request from his counselor. The form must be filled in completely, including signatures of instructors, counselor, and Mr. Clifford Swanson, dean of admissions.

A student will be subject to dismissal from Hartnell if, while he is on probation, the grade point average for the work undertaken that semester falls below 2.00 (a "C" average) or if, after two semesters of probationary status, he has not obtained a grade point average of 2.00 in courses attempted since registration.

"Whenever a student is charged with conduct unbecoming a member of the Associated Students of Hartnell college, his case is submitted to the president who may dismiss the student from the college either temporarily or permanently if he sees fit," stated Mr. Swanson.

USC Representative To Speak to Students

A University of Southern California representative will be on campus Nov. 1 to speak with students interested in attending USC. He will be here from 12:30 to 1:15 p.m. in Room 35.

Car Overhauled By Two Students

By MIKE ALITO

Mr. Henry Cassady, Hartnell English instructor, will have his car back in running condition this week. The auto mechanics shop, under the supervision of Mr. Paul Cothren, has undertaken the job of completely overhauling the engine in the vehicle.

This job is unusual in that the work is being done with the engine in the car. The engine is normally pulled from the car and set up on a work bench. Mr. Cothren credits Leon Silva and James Ronsse, Hartnell auto shop students, with an excellent job. Both students have been working on the job for four weeks.

"Another job well done," Mr. Cothren said, "was the complete overhauling of an automatic transmission by Gilbert Russell. This job was completed in one week, comparable with that of any major garages' time."

Hard Rocks Choose Cooper As President

The Hard Rock club has elected Joseph Cooper as its president. Meeting dates have been set for Wednesdays at noon.

The group will discuss different phases of geology. The club has discussed methods and techniques used in prospecting for oil.

Men's Club Field Day Set For Wednesday Afternoon

By SANTIAGO FLORES

The annual Men's club field day featuring interclass competition in various sports will be held at 3 p.m. Wednesday instead of today. It was postponed because of the weather.

Another highlight of the day will be a spaghetti dinner

in the men's gymnasium from 5:30 to 7:30 p.m. A talent show will follow. "All you can eat for only 50 cents," said John Mills, club vice-president. Out of town students are advised that busses will not leave until 7 p.m.

Mills wishes to correct the wrong impression which he feels some of the Hartnell women students are entertaining about the field day being an all-men affair. "The fact that it is being sponsored by the Men's club does not mean that it is solely theirs. It is as much the women's as well as the men's business," he advised.

The events include: 3:05, men's flag football, football field and women's volleyball, men's gym; 3:40-4:05, men's volleyball, men's gym; 4:15-4:40, men's softball, football field and women's basketball, men's gym; 4:50-5:05, "tie-up," football field.

A tie-up is a game in which two teams line up opposite each other with ropes on the ground between them. At a given signal, the participants attempt to tie up and drag members of the opposing team across either of the teams' starting lines. The first team to tie up and drag all or most of its opponents to its side is the winner.

Two More Seek Title

Two new candidates for homecoming queen have been announced. They are Ruby Shiotani, a Watsonville sophomore, and Anna Marie Brunken, a Salinas freshman.

Previously announced candidates are Janice Totten, Diane Stone, Diane Collier, Lydia Lavarato, Dianna Locatelli, Sandra Epperson, and Kiki Marimoto.

Thespians Sponsor After-Game Dance

Terrie LaMacchia and Staten Johnston will perform tomorrow night at the first after-game dance. The dance will be held in the student union from 9:30 p.m. to 1 a.m.

The theme of the dance is "Dramatic Music." It is sponsored by the Drama club and is the first after-game dance of the year. The prices are 75 cents for couples and 50 cents for stags.

Free refreshments will be served at the dance.

New Parking Lot Will Not Be Built

The proposed new college parking lot which was to have been constructed some time next year, will not be built, the college trustees decided last week.

The trustees tabled any action on the parking lot because of opposition from property owners on Alisal street. The parking lot was to be built because it was felt that the large number of cars parked on Alisal street depreciated property values.

Play Resembles Two Miss Perry Saw in Britain

"The Merchant of Venice," which is being presented Nov. 14, 15, and 16, will be presented in a style similar to that of plays Miss Eleanor Perry saw on her trip to England.

She saw the Stratford-on-the-Avon players present "Hamlet" and "Titus Andronicus" in the town of Shakespeare's birth.

"The Merchant of Venice" presentation will include many of the mannerisms and style typical of the Shakesperian age. It will include the same bold style and large movements.

The play reflects the economic, political, and social problems of that time.

The play will have a narrator, who will clarify the scenes, and will be presented in a simplified language. These simplifications are designed to appeal to an audience which may include younger students of 10 to 16 years.

While in England, Miss Perry also attended a series of lectures on Shakespeare and studied with the Oxonian expert on Shakespeare, R. C. Bayley.

Student Commission Approves Resolution

The student commission approved a resolution during its Monday meeting to give all alumni who attend the alumni banquet at Castlewood inn free tickets to the Hartnell-Menlo homecoming game Nov. 2.

EDITORIAL

SPIRIT NEEDED

The subject about which we will elaborate has been spoken of many times. It has been mentioned so often, in fact, that it is a topic not very worthy of conversation here at Hartnell. It is a problem with which many schools contend, but few to the extent that Hartnell does—or doesn't.

The subject, or problem, of course, is school spirit, or rather the lack of school spirit. Many students who have come from high schools which had a lot of spirit remark about the absence of this quality at Hartnell, and nothing is ever heard from them again on the subject; at least, nothing tangible is heard. These same students could, if they were willing to put out a little effort, raise the spirit on this campus.

Students who refuse to attend football games because the team is not winning lack school spirit. Schoolboyish and copybook maximish as it may sound, trying your best is more important than winning. The winning team, all other things being equal, is the team that tries all the way. Such a team is supported by the student body.

However, a team will not try its best if the members of that team think that they are playing for and to themselves alone. Forty men are a pretty small rooting section. They need help from the student body. High attendance at a football game, whether the effort is a winning or losing one, always promotes school spirit.

Intraschool affairs also are usually a very big item in determining school spirit. Dances such as that sponsored by the International club last Friday can do a great deal to make this a more unified college.

Many Questions Raised About Purpose of Russian Satellite

By JIM BELLAH

What is Russia's interest in launching its "Sputnik"? Is its reason a matter of pride? Are the Russians interested only in showing the free world who is superior in scientific research, or are they searching for a way to conquer outer space? Possibly they are interested in both.

"Whatever Russia's reason for launching the satellite," Mr. Raymond Puck, astronomy professor, says, "Evidently the 'Sputnik' is being controlled from the ground because of its speed and course around the earth."

Science hopes to obtain and measure certain information about ultra violet rays, cosmic rays, and the earth's magnetic field which it will receive from the satellite. The information received will further knowledge about space travel.

The United States has benefited from the Russian "Sputnik." Under the U.S. Vanguard program, this nation has been working on

smaller satellites that weigh 4½ and 21½ pounds compared with "Sputnik's" 184 pounds.

If needed, the United States can increase the weight of its satellite which it intends to launch in the near future. The difference in weight between Russia and U.S. satellites is accounted to the transmitter of the "Sputnik" which weighs approximately 70 pounds.

One of the reasons the U.S. gives for its lagging is that it has permitted honest differences of opinion between companies and between branches of the services, where the Russians have pushed forward disregarding individuals and their feelings.

Balboa Shirt Factory Seen by Clothing Class

Miss Gladys Schmidt's clothing class visited the Balboa shirt factory in Santa Cruz Friday to observe commercial manufacturing of shirts from the selection of fabrics to the completed shirt. Fifteen women made the trip.

PHYSICAL . . .

(Continued From Page 1)
Stockton. Before coming to Hartnell this fall, he taught at Glendale college for four years. He also taught at secondary schools in Fresno. He teaches chemistry.

Many Courses Offered

Courses taught in the physical science department here include general chemistry, quantitative analysis, laboratory experiments, special projects, geology, general physics, astronomy and engineering.

Two science clubs circulate at Hartnell. Mr. Puck is the advisor of the Hard Rock club and Anselmo heads the engineers organization.

Advanced laboratorial work and field trips are required by many of the courses. For every lecture hour, an average of twice as many hours is devoted to laboratory work. The college has fully-equipped chemistry and physics laboratories.

Students Invited To Take Part In Competition

Hartnell college has been extended an invitation from the Speech Arts association of California to send one representative to participate in a contest in interpretative reading. The contest will be held in the Hotel Bellevue in San Francisco. Awards will be given to the first through fifth place contestants.

The contest was primarily designed for Speech 2A students, but Mr. Hal H. Ulrici invites all interested students to compete. For more information concerning the contest, students should contact Mr. Ulrici in the Little Theatre.

NAVY MAN . . .

(Continued From Page 1)
lowering capacities: amphibious training officer, commanding officer of an LST, commanding officer of an ATF, operations officer of an APA, administration officer of a joint command, and director of a ship's movement report center.

Prior to being placed on the retired list of the navy, he served as administrative officer for the Taiwan (Formosa) defense command. Coordinating activities of various segments of command, he worked with the Chinese nationalist government for 14 months.

One unforgettable incident during his service in Formosa was the time he fell ill after a dinner with Chiang Kai-shek and his party. The Chinese general hosted a dinner for all American Taiwan commanders at the close of the 1955 annual training period. To his displeasure, Hawkins later discovered the root of his ills was the salad. On the island of Formosa poor refrigeration causes food to spoil quickly. The commander will always remember the incident of the 100 men who fell prey to a salad.

Santa Cruz Is Home

Settled in Santa Cruz with his wife, Hawkins is finding much satisfaction in the home life he had missed as a naval career man. He looks forward to going home each night to his wife and a home-cooked dinner and then finding a comfortable chair and desk after dinner to indulge in homework.

While receiving training abroad the P.T.C., Hartnell, and in the midst of turbulent waters infested with knowledge, Commander Hawkins offers a bit of timely advice to the young men planning for duty in Uncle Sam's forces.

"New horizons are in sight for today's young generation. Service for a career is highly advanced. Men have to be well educated if they hope to become officers in the service. The service is being streamlined today with smaller and stronger forces technically in men and power. The young men in America should plan ahead," he concluded.

Talent Show Slated

The Newman club is holding a free talent show in the Little theater at noon today. Masters of ceremonies will be Gary Harris and Wayne Handley. Dick Rohrke will do the commercials. There will be six acts.

Hungarians Recall Revolt Experience

By DENNIS LEE

Wednesday marked the first anniversary of the Hungarian revolution. The eyes of the world were on the brave struggle of a small country fighting to free itself from Russian domination. The revolution failed, but the gallant fight against overwhelming odds is destined to go down in history.

As an aftermath of the struggle, many Hungarians fled across the border into Austria to seek asylum. Under parole, about 70 Hungarians came to the Monterey-Salinas area, being sponsored by various institutions. The Hartnell International club undertook the sponsorship of four students, Joe Dubay, Geza Farkas, John Bolkeny and Maria Tulipan.

Joe, 18, plans to be a veterinarian. Asked of American girls, the only words he mustered were, "Not bad." The others wholeheartedly agreed. His favorite American singer is Tommy Sands.

Favors Goodman Music

Geza, 17, has three sisters. A major in mechanical engineering, he likes jazz and some rock 'n' roll. He is taking trombone lessons and likes the artistry of Benny Goodman and the late Glen Miller.

Miss Tulipan, 19, is the only woman. Her mother resides in Budapest, a sprawling city of more than 1,050,000. Maria, dentistry major, is the San Jose singles-doubles table tennis champion.

Brown-haired John, 18, has one sister and one brother living in Budapest. John is majoring in forestry and is experimenting with the trumpet.

Used Guns, Pistols

All were active in the revolt. Machine guns and pistols were used. John and Geza escaped together and Joe fled alone at night. Maria stayed at a hotel following a student revolt. The next morning the hotel was surrounded by Russian tanks. She managed to flee homeward, but not for long. The secret police had acquired her name. She slipped across a river past the border patrol boat to freedom.

The main difference in clothing fashions here and abroad in Hungary is the wide-gummed shoes and upper part of the outfit. It is a one-button closure, flushing outward toward the shoulders.

Asked if English was difficult, Geza replied, "Reading and writing is hard. Pronunciation is very hard."

Hungarians Like Pepper

Lunch in Hungary is equivalent to our supper. Breakfast is also a large menu, as is their dinner. Hot pepper is popular with the meals. Few sweets and meats accompany their diet.

Geza is impressed by the one-way streets. John and Geza "pooled" their revenue resources together and are proud possessors of a 1949 Oldsmobile.

Although such programs are illegal in Hungary, Hungarians tune in Radio Free Europe and Voice of America. American TV enjoyed here includes "I Love Lucy," "Gunsmoke," George Gobel, and Lawrence Welk. All are jazz fans, strong calypso followers and admire the

musicianship of Harry Belafonte.

Geza stated when he first arrived he wore ski pants and shoes, not knowing about California's climate.

Minimum Salary \$21.60

Minimum monthly salary is 540 forints, or \$21.60 in American currency. Cheaper medical bills exist there; the bills are paid by the employee. Doctors are paid by the government.

The youths dislike large cities. San Francisco is ideal and excellent in many respects. Lake Tahoe reminded them of homelife, where homes are of the rock-type, very little wood.

Soccer is the favorite pastime in the sports world. They do not participate in football, which is unknown in Hungary.

French and Italian movies are common there. Russian movies are also circulated, a distaste mentioned harshly by the refugees. Among the popular dances are the tango, swing, waltz, and mambo. Little known "rock 'n' roll" is on the upswing.

Maria, who likes nice men, baby sits. The others are unemployed. Maria and Joe are staying at the residence of Dr. Jerome Holmes and enjoy the Holmes' hospitality. Geza and John are staying with the Legro Pressleys.

All expressed their love of California and the American way of life, which could be found only in the United States, land of the free.

Students Join Ranks of Elite

Invitations were extended to Mrs. Manda Rines and Ralph Winter by the Alpha Gamma Sigma club to join the ranks of honor students. The two Hartnell students were placed on the eligible list this week, according to Mr. Robert Johnston, advisor for the club.

Mr. Johnston said that the club has again purchased the cup which will be presented to the homecoming queen on Nov. 4. The honor society will have the queen's name engraved on the cup.

Hartnell Acted Hosts To Boy Scout Troops

Hartnell college, in conjunction with Standard Oil of California, acted as hosts to the Boy Scouts of America troops of this area on Oct. 12 and 19. The occasions were in recognition of the fact that the Boy Scouts have named October "geology month."

During their visits here, the various Boy Scout troops looked over the rock collections of Mr. Raymond Puck, geology instructor, and who supervised the visits of the various troops.

They'll Yell for Panthers

■ Pompon girls who will assist the Hartnell college band and yell leaders throughout the football season are, left to right, front, Katherine Davis, Mickey Karns and Barbara Alinio; middle, Pat Van Aernam, Sharon Corea and Nancy Suurballe, and, rear, Janice Kelly and Gloria Balsley.

Male Faculty Members Have Fun on Wednesdays

By DEMETRIA DA-ATON

Gee, fellow students! Did you know some of the male faculty members are having fun playing volleyball on Wednesdays, from 4 to 5:30 pm.?

Mr. Darwin Peavy, who has been playing for almost 18 years is the unofficial instructor, and the following red-blooded players are included in the ground: Mr. William Bullis, Dr. Jerome Holmes, Dr. B. L. Borough, Mr. George Abbott, Mr. Raymond Puck, Mr. Roger Gammons, Mr. James Wilson, Mr. Craig Townsend, Dr. L. L. Bjarnason and Mr. Claud Addison.

The games are played in the men's gymnasium and are basically designed for all the male instructors who wish to have some fun and exercise after a day of school work. "It is much fun to lose," stated Mr. Bullis. "When an individual makes a good or a bad play, we all have to stop to make appropriate comments or have a good laugh," he added.

Mr. Townsend, Mr. Puck and Mr. Abbott are new players. They have been under the direction of Mr. Peavy, and making slow but steady improvements.

Dr. Borough is probably the most spectacular of all the players, but of course Mr. Peavy is by far the best player.

IVC and Art Clubs Will Decorate For Homecoming Events

Intervarsity Christian Fellowship is working with the Art club in decorating for homecoming activities. Decorating will include the front of the college, where the coronation of the queen is held, and the men's gymnasium, where the after-game dance will take place.

Intervarsity Christian Fellowship will supply the car which will carry the homecoming queen.

Installation Set

The Colhecon club will hold a pot-luck social for the purpose of installing newly-elected officers on Oct. 31 at 5 p.m. in Room 35.

Hartnell Students To Go to Meeting

Five students from Hartnell college will attend the California Junior College association conference in the Sheraton Palace hotel in San Francisco on Nov. 14 through 16.

Hartnell students attending will include: Al Zermeno, workshop on student government; Jack Sandy, workshop on finance; Barbara Pedella, workshop on campus activities; Kay Bourgerie, workshop on publicity; and Jack Dunstan, workshop on athletics.

Chess Club Revamped; Meeting Each Friday

The reorganization of the Chess club with 12 initial members has been announced by its adviser, Mr. William E. Kunhart.

The group will meet Friday noons in Room 39. In a few weeks, tournaments for beginners and experienced chess players will be set up, according to Mr. Kunhart.

FOOTBALLERS OPEN HERE TOMORROW

Vallejo's Fuller, Likely All-American, Has Tallied Nine Touchdowns

Vallejo college Falcons will meet the Hartnell Panthers at Salinas Union high school stadium at 8 p.m. tomorrow in Hartnell's first home football game of the season.

Charley Fuller, Vallejo's 165-pound, potential junior college all-American halfback, will be an attraction which no football fan will want to miss. Fuller scored four of Vallejo's touchdowns in their game with Santa Rosa, and, in all, has crossed the goal line nine times in the Falcons' first five games. Included among the touchdowns were punt returns of 54 and 92 yards.

Coach Ted Gebhardt feels Fuller is a better runner than Dick Bass, former Vallejo high school standout now with the College of the Pacific. However, the Falcon mentor, perhaps because Fuller is not as good in other departments of the game as he is at running, prefers to "sneak" the Negro star into the game when a punting situation develops, rather than have him in the starting lineup.

Vallejo Line Heavy

Vallejo, which has a heavy line to support its speedy backfield, lost its first game to Shasta, 21-0, but has won its other four games. The

Turner Gains Ground In Yardage Division

Hal Turner, Menlo Park halfback, has moved within 25 yards of overcoming Jim Stireman, the leading rusher since the first game. Stireman continues to lead the Panthers with 186 yards for a 5.2 average, according to Bob Stolic, student statistician. Stireman was also named "Player of the Week" for his stalwart efforts against East Contra Costa.

Gilroy's Ron Leonti has completed 10 passes for 201 yards for a 37.1 completion percentage. Milton Mau has eight completions on 21 attempts for a 38.0 percentage.

Jim Zachary has caught seven passes for 126 yards and three scores in the pass reception department.

Falcons stopped Menlo, 7-6, last week end.

Hartnell's probable lineup includes: Ruben Lopez, center; Dick Rohrke or John Plake and Ken Blanton, guards; Jim Mastin and Al Machado, tackles; Jim Zachary and Ron Garten, ends; Ron Leonti, quarterback; Merwin Kehl and Hal Turner or Bob Cobanyog, halfbacks; and Jim Stireman, fullback. Rohrke and Halfback Dick Hardy may not play because of injuries.

Zachary Stars As Vikings Sink Panthers, 20-13

The East Contra Costa Vikings greased the skids of the Hartnell Panthers to the tune of 20 to 13 Saturday at Pittsburg. Fumbles, pass interceptions and penalties wreaked havoc with the Panthers' offensive threats.

Except for the passing of Quarterback Ron Leonti, and the fine catches made by End Jim Zachary, the Panthers would have been blanked. Leonti's passes to Zachary accounted for all of Hartnell's digits. The consolation of dominating the statistics in the second half was of little value, as this was the Panthers' fourth straight setback.

JAMES BARTLETT • SPORTS EDITOR

Hartnell Panther Basketeers Will Open Season Dec. 5

By WAYNE UMBERTIS

Basketball will get under way for Hartnell sometime in November with practice tilts scheduled with Fort Ord and surrounding high schools. The season will get into full swing on Dec. 5, when the Panthers travel to Porterville for their official opener.

Along with 20 scheduled games the squad will participate in two tournaments. Dec. 19-21 has been set aside for the Coast conference tournament at Vallejo, with the Holiday tournament in Santa Maria to follow on Dec. 26, 27 and 28.

The Panthers have been at work for about two weeks and are advancing rapidly. Returning lettermen, good height, and talented newcomers point to one of Hartnell's most promising seasons. Playmaker Ron Critchfield will be

missed, but Guard Frank Padilla has been looking good and, along with Bill Loveless, could give Coach G. Ed Adams just the punch he is looking for.

Jim Mastin and Ron Garten, two promising candidates, will not join the squad until the conclusion of the football season, but they are expected to bolster the team.

Panther Runners Bow to Vikings

Coach Ed Adams' cross-country team lost to East Contra Costa in its first race Saturday at East Contra Costa. However, it will be seeking revenge Saturday when it meets East Contra Costa, Vallejo and Monterey. The run will be at 4 p.m. on Hartnell's campus.

Team No. 3 Leads Noon Volleyball Loop

Team 3 is leading the standings in the mixed intramural volleyball league with a 5-0 record. Team 2 follows with four wins and two losses.

Members of the leading team are Jackie Bagley, Jean Hamer, Jeanette Kirk, Donna Merlotti, Phil Netto, Rocky Palma, Donald Bush, and Johnny Ables.

Ross, King Shine

The team of Ron Ross and Roger King, both potential members of the Panther basketball squad, are leading the doubles volleyball tournament. Ross and King have a 2-0 record.

College Band To Play At First Home Game

The Hartnell pep band, under the direction of Mr. Robert Lee, will be on hand for the home football opener tomorrow night. They will be unable to march because of lack of members and other difficulties.

Mr. Lee will try to have the band ready for marching later in the season.
